Botswana Tours (Okavango Delta)

1. **Requirements And Specifications**

- Provide information on Botswana National Wildlife Reserves and sites for both local and international tourists.
- Curating a feeling of Botswana's biodiversity.
- Information and thrill-seeking enthusiasts, both for leisure and research, in making their decisions for visitation.
    - ❖ Benefits
        - Skill development (enhances the ability to structure content using **information design and taxonomy)**
        - Can be presented to employers or clients, acting as a professional project to showcase web development skills.
    - ❖ Benefits (Company)
        - Tourism Promotion/Marketing
            - Showcases Botswana's wildlife, destination, and Okavango Delta experiences
            - Help attract local and international tourists
        - Brand Awareness
            - Increases visibility of the tourism brand online and the Okavango Delta as the leading factor
            - Encourages users to explore more information (access to wildlife information, destinations to explore the Okavango region, and external resources)

2. **Target Audience**
    - Age: 18-40
    - Demographics: The "Experience seeker", authenticity, digital storytelling, and the "Conscious luxury" traveler (high-end, sustainable, culturally respectful experience).

3. **Site Classification**

Tourism Information Website (Travel Website), containing:

- Hero section
- Navigation bar
- Carousel/image Slider
- About Section
- Content Section (Text + Links)

- Wildlife Section

  Core theme: Showcasing Botswana's **natural attractions** (Okavango Delta) and tourism experiences.

4. Information Design and Taxonomy

Main Page Sites

- Home
- Wildlife
- Plants
- Attractions
- About
  - ❖ **Navigation Flow**

  User lands on **Home Page:**

- Sees **hero section** of the Okavango delta sunset over it
- Scrolls down, with a **carousel** of respected featured sites, Botswana prides itself in
  - ❖ **Navigation Options**

  From **home**, the user can:
- click **About** on the (learn more about what the website)
- Click **Wildlife** (see animals situated around the Okavango delta and information about them)
- Click links in content (for access to external sites for more information)
- Click **Plants** (to view flora situated around the Okavango delta and other native plants for educational purposes)
- Click **Attractions** (with more elaboration on the Okavango delta, camps and lodges for easy accessibility to the wetland and other natural aspects situated around it)
  - ❖ **Internal Navigation**

Inside pages:

- Wildlife page - links to more info (external)
- About page (links back to **Home**)
- Users can return to **Home** via the navbar
- Consistency -simple top navbar on all pages, making it easy to navigate

5. **Page Template Design**

- Overview

  The website uses a consistent page template design to ensure it is perceivable and operable, with a clear layout and easy navigation across all pages. Each page follows a similar structure, allowing users to quickly understand where to find information.

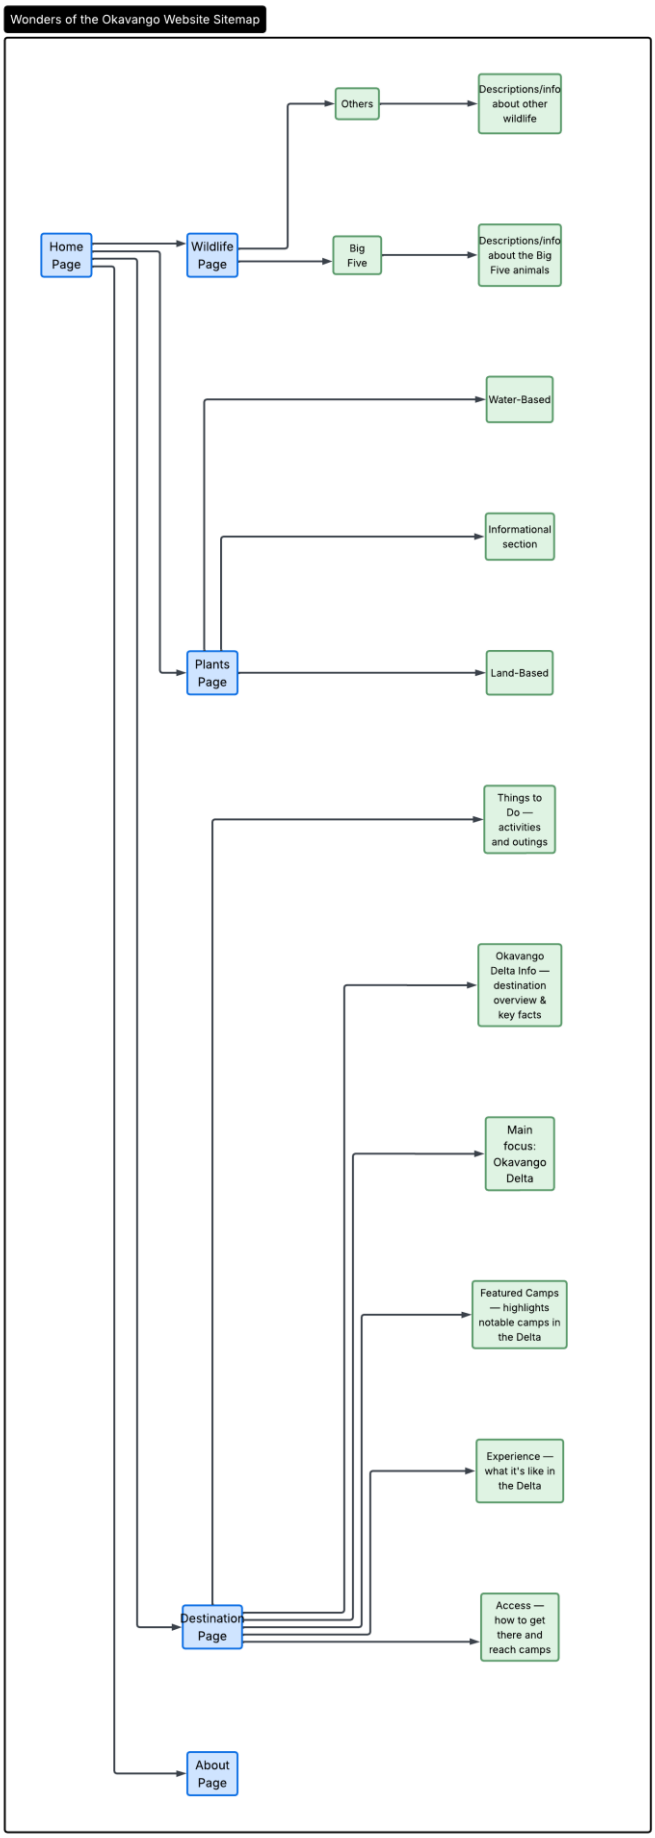
- General Page Structure
  - Navigation Bar
  - Hero / header Section
  - Main Content Area
    - Text
    - Images
  - Content Sections (cards, links)
  - Footer

- Design Consistency

  The template maintains consistency through:

  - Repeated navigation bar across all pages
  - Consistent color scheme (earthy nature theme) and typography
  - Uniform layout structure
  - Reusable components such as cards and content sections

❖ Site Map



Wonders of the Okavango Website Sitemap
Home Page
Wildlife Page
Others
Descriptions/info about other wildlife
